**TERRITORIAL PISSINGS**

*1. Verse*            When I was an alien  
                             Cultures weren't opinions

*Chorus*                Gotta find a way to find a way when I'm there  
                             Gotta find a way, a better way, I'd better wait

*2. Verse*                Never met a wise man  
                             If so it's a woman

*Chorus (2x)*           Gotta find a way to find a way when I'm there  
                             Gotta find a way, a better way, I'd better wait

*Intermezzo*

*3. Verse*                Just because you're paranoid  
                             Don't mean they're not after you

*Chorus (4x)*           Gotta find a way to find a way when I'm there  
                             Gotta find a way, a better way, I'd better wait
